+39 339 7653527 (Brizio)

VOCALS: It is specified that all the vocals alternate as soloists, so there is not a "lead vocal" and the level of all the microphones must be the same. If requested, the band can provide the sound engineer with a setlist indicating the solo vocal on each song or any other needs.

OPTIONAL: Moreover, in order to achieve the 'Beatle look', the band require, if possible:

- a 2x2 mt drum riser;
- a projector with a projection screen positioned behind the drummer or, alternatively, the possibility to hang our 3x2 mt banner;
- a dressing room near the stage or alternatively a closed space (e.g. a gazebo) for a possible change of clothes before or during the show.

** The names and number of members may vary without notice.
