VOCALS: All three front vocalists alternate as lead singers, even within the same song. Therefore, there is no fixed lead vocalist and all microphone levels should be kept equal. If required, the band can provide the sound engineer with a setlist including specific notes.

ADDITIONAL REQUIREMENTS (if possible):

- a 3 x 2 m drum riser;
- a projector with screen positioned behind the drummer, or alternatively the possibility to hang our 3 x 2 m backdrop;
- a dressing room near the stage or, alternatively, a closed space (e.g. gazebo) for changing before or during the show.

** Technical requirements may vary depending on the venue.

** The names and number of members may vary without notice.
